Car Mats
Looking
Like New!**

*"Thanks to The Car Mat Protector my 2 year
old car mats look like they are brand new!"*

Eric Leonard, Hollywood, FL

*"When I traded-in my car, the dealer was impressed
by my Car Mat Protector. He said that he knew
my car had been very well taken care of!"*

Janet Plummer, Miami, FL

Dear Mr. / Mrs. Customer,

I know that keeping our cars clean and beautiful is part of the commitment of owning a luxury automobile. Keeping the outside of the car clean is fairly simple, but protecting the inside, especially the floor mats, is a bit more difficult. Precisely for this reason, my company has developed this new product that will make protecting your car's floor mats much easier without ever having to scrub, spray or do anything else associated with cleaning upholstery.

Derived from the latest European designs in automobile accessories THE CAR MAT PROTECTOR is going to help you keep your car mats looking like new. What makes THE CAR MAT PROTECTOR such a unique product is that it is made from a top quality and very durable 16 gauge transparent plastic that is specially designed and custom built for your car mats. When you place your car's floor mats inside THE CAR MAT PROTECTOR you are instantly protecting them from virtually anything that can cause dirt or stains - thus keeping your car mats looking like new, while enjoying their beautiful colors! Because we spend so much for our automobiles, quality, value and durability is what makes THE CAR MAT PROTECTOR worth buying. I can guarantee it!

*Gifford T. Williams, President & CEO
